

Importers of Premium Russian Birch Plywood
*Standard · Filmfaced · Wiremesh · Fully Birch Core ·
HYPERFORM™ Formply · FSC MIX Certified ·
E1 Formaldehyde Emission · CARB 2 Certified*

Richwise Australia

Operating in Australia since 2009, Richwise Australia Pty Ltd is an FSC certified importer and wholesaler of competitively priced Russian birch plywood. We are based in Melbourne but can supply material to all Australian states and territories.

Our Materials

We offer premium quality standard and film-faced Russian birch plywood, plus our new AS6669 compliant structural HYPERFORM Russian birch formply, at very competitive prices.

Sustainability

Our plywood is environmentally friendly, featuring E1 Formaldehyde emission, and CARB Ph2 certification. FSC MIX certificates are available on request.

Local Stock

At the moment we only stock limited quantities of the most popular sizes of birch plywood locally – to accommodate trial supplies, smaller size wholesale, trade and retail orders. This may change in future.

Import

For larger orders we can import material directly from our Russian suppliers with the following conditions:

- Turnaround: approximately 3-4 months;
- Terms: FOB, CIF, CFR;
- Minimum order volume: 1 Full Container Load (FCL);
- Payment terms: LC on documents.
